2015 Goals

- To register EIM Philippines as an independent body with the Securities and Exchange Commission
- Form partnerships with Philippine Society of Endocrinology, Diabetes and Metabolism, Philippine Pediatric Society, Association of Philippine Medical Colleges, SPENPhil (a national sports organization formed 2 years ago; the members are 100 individuals, not associations), Philippine College of Physicians, Philippine Association of Family Physicians Inc.
- To continue providing EIM training courses for healthcare and exercise professionals
- To engage in research projects examining the benefits of EIM including potentially investigating the integration of EIM principles into worksite wellness

Past Accomplishments

- EIMP sent 2 doctors and 2 fitness professionals to train in EIM Singapore (January & February 2014)
- EIMP conducted its first training with 11 doctors, 4 fitness professionals plus 2 wellness experts
