2018 Goals

- Increase the number of health professionals who are assessing, prescribing and advising their patients on physical activity.
 - Participate in the most important annual health programs with the objective of making both physicians and patients aware of the need to carry out a physical activity program.
 - Formalize strategic alliances with public and private institutions to encourage them to conduct public campaigns with short and effective messages on the benefits of physical activity and the harms of sedentary lifestyle.
-

Accomplishments to Date

- Conducted 12 "Exercise Prescription" that trained a total of 536 specialists and general physicians (2013-14)
 - Hosted a symposium on "The Benefits of Physical Activity" (2016) with the endorsement of the Catholic University of Ecuador
 - In 2017, reactivation of the EIM Ecuador National Center
 - Through a strategic alliance with the Ecuadorian Ministry of Sport and the Ministry of Health, hosted 12 workshops in various cities throughout Ecuador that trained 450 family specialists in the "Approach of the Neighborhood Doctor" program (2018)
 - Hosted a joint scientific workshop with the Society of Cardiology on exercise and arterial hypertension with 120 medical assistants (May 2018)
 - Formed strategic alliances between the Ecuadorian Society of Cardiology and the Universidad de Las Américas, the Ministry of Health, the Secretary of Sports, and the municipality of Quito to host future EIM-related events
